

Visor and wristband

Papercraft instructions

*Kids, ask a grown-up to help!

Visor

- 1 Use scissors* to cut out visor along solid black lines. Carefully cut around the logo.
- 2 Fold paper along the straight dotted line.
Tip: To establish a crease, first fold down, then back up toward yourself.
- 3 Pinch-fold along the curved dotted line, slowly pinching and creating a fold as you go.
Tip: You can gently press tiny indentations along the curved dotted line before folding it to help create a smooth crease.
- 4 Fold the curved dotted line up to meet the solid line.

Visor assembly

- 1 Use scissors to cut out two straps along the solid black line, then cut the strips apart along the dashed line.
- 2 Tape or glue the marked ends to the sides of the visor. Check to be sure the logo is right side up!
- 3 Wrap the visor and straps around your head and adjust length as needed.
- 4 Tape or glue the ends of the straps together at the correct length.

Wristband

- 1 Use scissors to cut out wristband along solid black lines.
- 2 Wrap paper strip around your wrist. Adjust length as needed.
- 3 Tape or glue the ends together at the correct length.

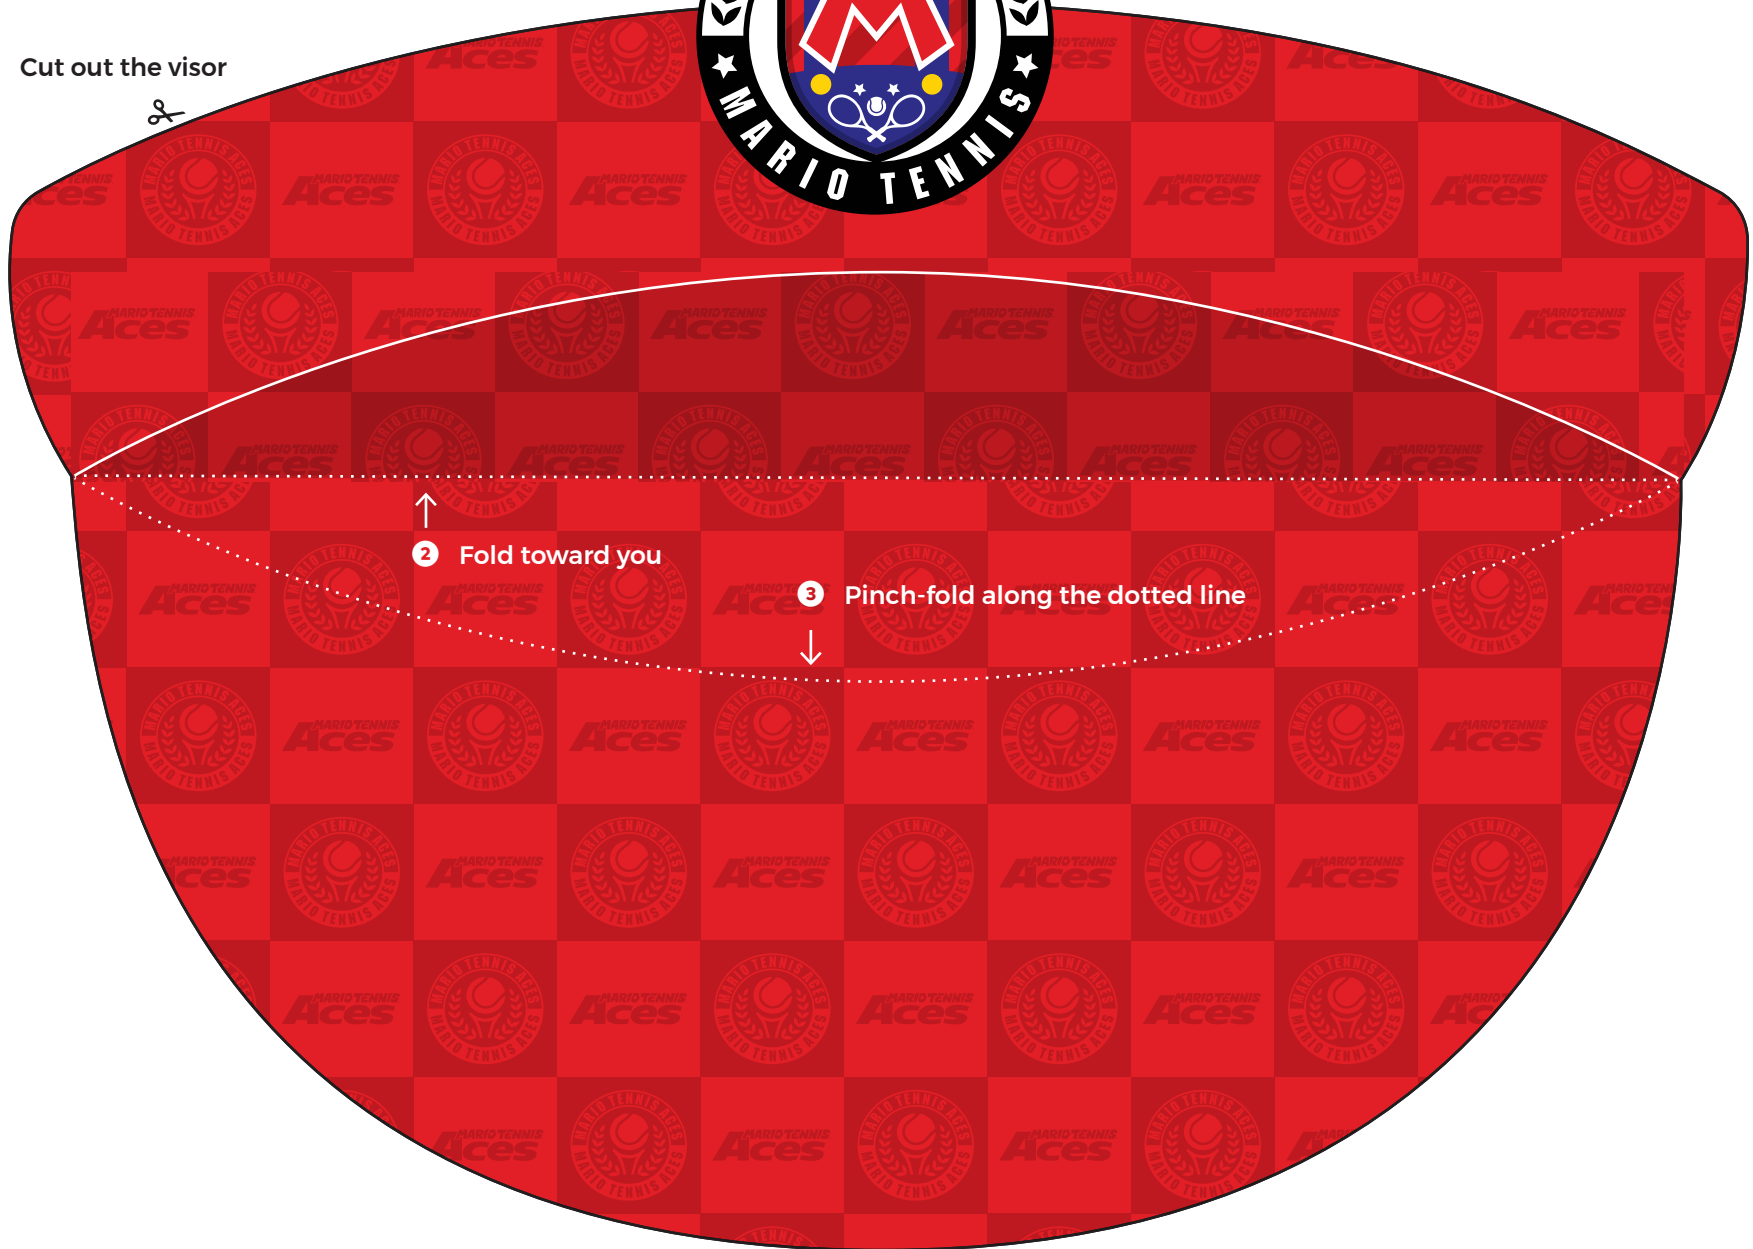

Show off your character's signature color with a stylish visor and wristbands!
